

Hi - I'm Kim Leverage.

Welcome to my Wiki.

I teach Technology Education, Speech and Presentation, and Communication Technology at Colonel Richardson High School which is located at the southern end of Caroline County. In addition, as a two year special assignment, I also teach a beginning STEM class to sixth graders at the middle school next door. Just in case you are not familiar with the term, STEM stands for science, technology, engineering and math. The high school Technology Education classes that I teach are mandatory for graduation in MD.

My primary goal as a teacher is to prepare students for the global marketplace. To be successful in today's "flat world", as described by Thomas Friedman in his book by the same title, students need exemplar relationship building and communications skills as well as a strong ability to use and to continue to learn how to use a wide variety of tech tools.

See you online.
